COMMAND OS

Launch Package
February 16, 2026

Command OS: Manager Handbook

The new Command OS empowers you to manage the store efficiently, ensuring compliance, operational excellence, and staff satisfaction. ---

🛡️ Compliance & Audit (Crucial!)

Audit Trail

- **Where**: "Compliance" Tab in Staff View.
- **Why**: Every critical action—Stock updates, Shift changes, Cash refunds—is logged here.
- **Action**: Review this daily.

1. Look for "High Severity" logs (marked Red). 2. Check for unusual "Stock Adjustments" (e.g., -5 items without explanation). 3. Export to Excel weekly for archival.

Staff Performance Monitoring

- **Lateness**: Check the "Attendance" tab for staff clock-in times.
- **Task Completion**: Monitor the "Daily Checklist" for timely completions.
- **Sales Voids**: High void rates per staff member might indicate training needs or theft.

👥 Workforce Management

Figure: System Interface (Placeholder for Smart Rota Planner)

Planning the Rota

1. Navigate to **Staff > Rota Planner**. 2. Drag and drop staff onto shift slots. 3. Check "Availability" indicators (Green = Available, Red = Busy). 4. **Publish** the Rota only when finalized (Staff receive notifications). 5. **Changes**: Edit shifts directly. Staff will be notified of updates.

Approving Leave

1. Check the **"Pending Requests"** section in the Dashboard. 2. Review the dates against the Rota. 3. Tap **Approve** or **Reject** (with a reason). 4. The system automatically updates the Rota if approved. ---

📦 Inventory Control

Figure: System Interface (Placeholder for Inventory View)

Stock Adjustments

- **Correcting Counts**: Use the "Adjust Stock" button responsibly.

Always* add a reason (e.g., "Expired", "Damaged", "Supplier Issue").

- **Expiry Management**: Check the "Expiry Risk" dashboard weekly.

* Apply "Reduce to Clear" labels for items nearing expiry.

- **Pricing**: Update prices via the "Product Edit" screen. ensure shelf labels are reprinted.

📢 Communication

- **Announcements**: Post messages to the staff dashboard (e.g., "Stock Take Sunday").
- **Feedback**: Encourage staff to report bugs or suggestions via the "Help" module.

🚨 Emergency Procedures

- **Terminal Lockout**: If a staff member is locked out, use your Manager PIN to verify their identity and reset access.

- **Offline Mode**: The system works offline. Data syncs automatically once internet returns.

Note*: Ensure tills are reconnected promptly to avoid data conflicts.
